SUMMARY

Google-Certified IT Support Specialist with hands-on home lab experience deploying enterprise-level domain environments. Proficient in troubleshooting hardware/software issues, managing Active Directory, and automating deployments via Group Policy. Committed to providing clear, effective technical support and maintaining optimal system performance.

WORK EXPERIENCE

Technical Projects | 2024-2025

- Built a fully functional Windows Server 2022 domain in a home lab environment, managing user accounts and group policies for **20+ virtual machines** to simulate an enterprise setting.
- Configured network services and **troubleshooting methodologies**.
- Implemented **file security** and **access control systems**.
- Automated **software deployment** across a lab domain environment using **Group Policy**, dramatically **reducing manual installation time** and ensuring consistent configurations.
- Detailed documentation: filali-portfolio.vercel.app

Sales Consultant | 2022-2023

- Assisted **30+ daily customers** with product inquiries and purchases
- Developed strong customer service and communication skills through direct client interactions
- Managed store operations including cash handling, inventory management
- Handled multiple responsibilities simultaneously in **high-traffic weekend periods**

Freelance IT Support

- Diagnosed and resolved **hardware/software** issues for 50+ personal devices (PCs, laptops, mobile devices)
- Performed **system imaging, data backup, and recovery operations** to prevent data loss
- Secured and optimized home networks for **10+ clients** by configuring wireless routers and implementing **WPA2 security protocols**, eliminating connectivity issues.
- Provided technical guidance and support to **non-technical users** in clear, understandable terms
